REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a cutting tool for use in a robot system, the cutting tool has cutting effecting end pointed biased with a radial offset with respect to a final rotational axis of the wrist of the robot arm and directed toward the final rotational axis, the cutting tool includes a variable axis including a linear axis for varying a position or a direction of the effecting end with respect to the final rotational axis of the wrist. Claims 9 and 16 disclose a method for machining a cylindrical workpiece using the cutting tool disclosed in claims 1 and 8.

Hirai does not disclose a cutting tool including the linear variable axis. The variable axis disclosed by Hirai is of a tool post not a cutting tool. Further Hirai does not disclose a motivation for constructing a cutting tool with a variable linear axis or rotational axis, and a motivation for using the cutting tool with a robot system with the end effector biased toward the final rotation axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
